Our Community Alliance is an initiative which aims to bring the local community together to grow the good work they are already doing. We are an informal network of residents, community groups, voluntary organisations, businesses, and organisations who care about the local neighbourhood and the places we live and work in. To grow this network, we need you to join our Community Alliance and help increase our impact. Please come and meet us on 25th November to find out more.

We are stronger together.
